

Franklin Country Club Pool

The FCC Pool will open on June 29th with the following COVID-19 provisions in place as required by the state. These provisions will remain active until further notice. The FCC Board of Directors and Club Management are actively monitoring the 'KY Healthy At Work' updates, that are set by Governor Beshear and his staff, to ensure that we are meeting the requirements for operating.

**** If you feel ill, sick, or are running a temperature, please stay home.**

1. Please check your party's temperature(s) before coming to the pool (temperature must be < 100.4).
2. All seating will be spaced 6 ft. apart to comply with the social distancing requirements. Please do not relocate the seating.
3. The pool capacity is 60, it is calculated by the square footage and a factor. This assumes there will be 6 feet of space surrounding each swimmer.
4. Please use provided spray sanitizer for your chair/table when you vacate it.
5. **No** gathering or sitting at pool steps.
6. IN and OUT markings for traffic flow at the pool steps, will be posted.
7. Bathrooms will be sanitized frequently and ventilated.
8. Please arrive in your swim attire to reserve the facilities for restroom purposes only. This minimizes the crowding in the restrooms.
9. Common areas and frequently touched surfaces will be cleaned/sanitized.
10. Please wash hands frequently and/or use hand sanitizer.
11. Only small children will be allowed in the Baby Pool with an adult and should be limited to comply with social distancing.
12. There will be postings at the Diving Board to comply with 6ft social distancing.

Parents are responsible for ensuring their children are following and adhering to social distancing requirements.

Until further notice, NO Wednesday Guests or out of town overnight Guests will be permitted at the Pool due to limited seating.

We have reduced our seating to 41 loungers and 5 tables (tables are for family use) to meet the requirements. Pool loungers and tables will be on a first come first serve basis, **no reserving**.

If all the seating is fully occupied, you can set up on the west side of the pool in the grassy area (you will need to bring your own chairs, pop up canopies are allowed in this area) until seating in the pool area is vacated. The pool capacity is higher than the deck seating capacity, therefore, if you are set up in the grassy area, you can potentially still get in the pool. The Lifeguards will be monitoring the pool headcount and will let folks know if it is at capacity.

We will try to accommodate all members that wish to swim, so please be patient with us, as we are required to follow “Healthy at Work Guidelines” that have been issued by Governor Beshear to open and operate our pool.

Thank you,
Debbie Hudson,
FCC Pool Manager
270-647-1805
